1 Who we are

We are local parents, like you.

We have a team of teachers with great reputations and years of experiences, who also build caring relationships with students.

The reason driven us to found New Hope Learning Center (NHLC) is to have a safe and fun place for our own kids to learn Chinese everyday after school.

If you share the same believe that mandarin is an important language worldwide but may not be able to provide adequate helps. We wish NHLC would be the bridge connects your little curious hearts to a profound ancient culture.

If you're looking for a place for your kids to do homework with tutors, learn more in a fun way and make some great friends. We also provide Spanish classes, English reading & writing, fun Math, Tutoring and all kinds of enrichment activities.

NHLC is a fun and educational place for all.
